TECHNOLOGY LEADER & PRINCIPAL ARCHITECT | .NET & ERP SYSTEMS (V3: STRATEGIC LEADERSHIP)

Enterprise Technology Leader and Principal Solutions Architect with 18+ years of expertise in digital transformation, high-scale .NET SaaS platforms, and robust ERP ecosystems (SAP S/4HANA, B1). Proven track record of scaling engineering organizations, modernizing core legacy monoliths, and building resilient, cloud-native architectures. Strategic technical advisor who translates complex business vision into execution, driving team capability, operational excellence, and enterprise-level business growth.

STRATEGIC & LEADERSHIP HIGHLIGHTS

- **Leadership & Scaling:** Team Building & Mentorship, Resource Allocation, Agile/Scrum Evangelism, Vendor Management
- **Architectural Paradigms:** Clean Architecture, DDD, CQRS, Event Sourcing, Microservices, Event-Driven Systems, API Governance
- **Business Alignment:** Stakeholder Management, C-Level Technical Advisory, Technical Systems Roadmap, Cost Optimization
- **ERP Integration & Customization:** Enterprise Integration Patterns (EIP), SAP Business One SDK, SAP S/4HANA Migration

TECHNICAL EXPERTISE

- **Backend & Cloud:** C#, .NET Core/.NET 5+, ASP.NET, gRPC, Docker, Redis, RabbitMQ, REST APIs, SignalR
- **Frontend & Mobile:** Blazor WebAssembly, MAUI (Multi-platform App UI)
- **Databases & Data Warehousing:** PostgreSQL, SQL Server (2005-2022), SAP HANA (SQL Script), T-SQL, Query Performance Engineering
- **Methodologies:** CI/CD Pipelines, SOLID Principles, Automated Testing Strategies, Agile Frameworks

PROFESSIONAL EXPERIENCE

Full Stack Lead Architect | SaaS Customer Service Platform | Remote

Jan 2024 - Present

- **Directed the architectural evolution** of a multi-tenant SaaS platform, implementing a real-time communications backend with Blazor, SignalR, and Redis that scaled to 15,000+ concurrent active users.
- **Improved platform performance** by 88%, reducing core interface response latencies from 2.5s to 300ms while reducing PostgreSQL database CPU usage by 40% through deep index tuning and query plan refactoring.
- **Architected** containerized deployments via Docker on Ubuntu Linux, achieving 99.99% uptime and introducing automated recovery protocols to eliminate production downtimes.
- **Advised business leaders** on technical roadmap strategies, identifying bottlenecks, prioritizing features, and improving overall release predictability by 35%.

Senior Architect & Technical Lead | Invent Software | Goiânia, GO

Nov 2023 - Oct 2024

- **Spearheaded the architectural redesign** of complex enterprise fiscal modules for the TaxPlus add-on, supporting 50+ high-volume corporate clients and processing 100K+ monthly fiscal documents across 8 states.
- **Re-engineered** the tax calculation processing pipeline using Task-based parallel concurrency patterns in .NET, accelerating calculation times from 8s to 1.2s (85% throughput optimization).
- **Established** high-standard code quality guidelines, mentoring 4 senior developers, implementing strict peer-review workflows, and elevating unit test coverage from 45% to 82% to slash post-release defects by 62%.

Development Manager & Technical Lead | Atacadão Dia a Dia | Goiânia, GO

May 2022 - Sep 2023

- **Championed the technical strategy** and led a team of 6 engineers for a highly complex SAP S/4HANA ERP migration, successfully consolidating 12 business-critical legacy systems.
- **Drove cross-functional alignment** between Engineering, Logistics, and Finance, translating complex business processes into scalable integration designs, which saved over \$200K in annual operational redundancies.
- **Coached and mentored** the engineering team, creating individualized growth paths that enabled 2 mid-level developers to promote to senior roles within 12 months.

- **Collaborated with C-level stakeholders** to define the strategic system integration roadmap, prioritizing high-throughput .NET microservices to interface between retail POS and S/4HANA.

Development Manager | H&CO | Goiânia, GO

Aug 2021 - May 2022

- **Led and scaled** a cross-functional department of 8 C#/.NET developers across multiple concurrent SAP B1 enterprise integration projects under strict SLA requirements.
- **Defined and governed** API design standards utilizing SAP Service Layer and DI API, creating robust integration pipelines that reduced third-party logistics onboarding times by 3 weeks.
- **De-escalated complex client account crises** by restructuring engineering sprint priorities and establishing rigorous code quality gates, cutting critical production incident rates by 55%.

SAP B1 Development Manager | Run Sistemas | Goiânia, GO

2019 - Aug 2021

- **Built and nurtured** a high-performing engineering team of 7 developers from the ground up, establishing an agile software development culture for custom SAP Business One enterprise products.
- **Oversaw the product lifecycle** of 4 flagship retail and inventory applications, automating operational workflows for 100+ business clients and reducing their monthly auditing overhead by 50%.
- **Translated complex product backlogs** into concise sprint deliverables, increasing roadmap delivery predictability by 30% through strict agile scrum implementation.

Senior SAP B1 Developer | Run Sistemas | Goiânia, GO

2016 - 2019

- **Architected the transition** of a legacy desktop add-on suite from a tightly-coupled UI-API model into a highly decoupled, service-oriented framework using SAP Service Layer, reducing future upgrade maintenance overhead by 70%.
- **Designed** high-availability transactional procedures in C# .NET and SQL Server, processing millions of rows of monthly ledger and warehouse data with absolute reliability.

Senior SAP Developer / Team Lead | Invent Software | Goiânia, GO

2013 - 2016

- **Promoted to Team Lead** to command a development squad of 4, standardizing advanced .NET software architecture patterns and ensuring clean code compliance.

- **Designed high-throughput API endpoints** connecting SAP B1 with external client portals, seamlessly processing over 500K daily transactions with a 99.95% accuracy rate.

Systems Analyst & C# .NET Developer | Milênio Distribuidora | Goiânia, GO

Jun 2007 - Jan 2013

- **Engineered an enterprise-wide metadata reporting engine** in C# and T-SQL, completely integrated with SAP B1, becoming the official corporate data standard for 300+ daily operational users.
- **Designed and automated** end-to-end electronic fiscal document flows (CT-e, MDF-e), driving paperless logistics automation and securing 100% compliance with federal tax laws.
- **Developed a high-volume banking transaction reconciliation engine** handling 50K+ monthly items, removing manual auditing errors and saving over 40 weekly operational hours.

EDUCATION & ACADEMIC BACKGROUND

FASAM

2007 - 2009 (Coursework completed, thesis pending)

Universidade Salgado de Oliveira

2003 - 2007

LEADERSHIP CERTIFICATIONS & COMPREHENSIVE TRAINING

- **Certified ScrumMaster (CSM)** – Scrum Alliance
- **SAP Certified Associate** – SAP Business One (Integration & SDK)
- **Microsoft Certified: Azure Developer Associate** (AZ-204)
- **Strategic Studies:** IT Leadership & Team Scaling (Scrum Alliance), Advanced Systems Architecture & Clean Coding, High-Performance Database Systems & Tuning

STRATEGIC ENTERPRISE ACHIEVEMENTS

- **SaaS Platform Scale Redesign (2024):** Re-architected connection layers of SaaS platforms to support 15,000+ concurrent connections via Blazor + SignalR + Redis.

- **SAP S/4HANA Modernization (2022-2023)**: Led integration architecture for 12 systems, migrating corporate legacy architectures to S/4HANA, realizing \$200K+ in annual operational savings.
 - **Enterprise SOA Shift (2016-2021)**: Restructured standard desktop monoliths into modern Service-Oriented Web Architectures using SAP Service Layer, cutting customer upgrade cycles and maintenance costs by 70%.
-

EARLY CAREER

- **IT Assistant** | Milênio Distribuidora | Jun 2006 - Jun 2007
 - **IT Intern** | Goiás Caminhões e Ônibus Ltda | 2004 - 2005 (Delphi development and database administration helper)
-
