SENIOR SOFTWARE ENGINEER | .NET & ERP ARCHITECT (V2: METRICS-DRIVEN)

Senior Software Engineer with 18+ years architecting high-impact .NET solutions across ERP (SAP B1, S/4HANA), SaaS, and enterprise integrations. Proven technical leader who translates complex business challenges into scalable, event-driven architectures—with a track record of modernizing legacy systems, growing high-performing teams, and driving digital transformation.

TECHNICAL SKILLS

- Languages & Frameworks:** C#, .NET Core/.NET 5+, ASP.NET, Blazor, MAUI, LINQ, Entity Framework Core, SignalR, gRPC
- Architecture & Cloud:** RESTful API Design, Event-Driven Architecture, Microservices, Clean Architecture, DDD, Docker, Redis
- ERP & Integration Platforms:** SAP Business One (UI API, DI API, Service Layer), SAP S/4HANA SDK, RFC/BAPI
- Databases & Query Optimization:** PostgreSQL, Microsoft SQL Server (2005-2022), SAP HANA (SQL Script), T-SQL, Stored Procedures, Index Tuning
- Tools & Methodologies:** Git, CI/CD, Ubuntu Server, Agile/Scrum, SOLID, Design Patterns, Unit/Integration Testing

PROFESSIONAL EXPERIENCE

Full Stack C# Developer | SaaS Customer Service Platform | Remote

Jan 2024 - Present

- Architected and deployed** real-time UI/UX features for 15,000+ concurrent active users using Blazor WebAssembly and .NET API backends, reducing UI response latency from 2.5s to 300ms (88% improvement).
- Engineered** a highly scalable, real-time message distribution layer with SignalR + Redis backplane, successfully handling over 200+ messages/second with sub-50ms network latency.
- Designed and optimized** a high-performance normalized PostgreSQL database structure, refactoring complex query plans and reducing database CPU utilization by 40% while accelerating critical dashboard loads by 65%.

- **Managed** full-lifecycle Linux administration, deploying microservices via Docker in Ubuntu Server environments, maintaining a 99.99% uptime SLA across all client production environments.

Senior C#/.NET Developer (SAP B1 Specialist) | Invent Software | Goiânia, GO

Nov 2023 - Oct 2024

- **Architected and delivered** the complete fiscal compliance module (CT-e, MDF-e, NFS-e) for the TaxPlus add-on, supporting 50+ enterprise clients across 8 Brazilian states and processing 100K+ tax documents/month with 99.8% compliance accuracy.
- **Optimized** tax calculation engine performance from 8s to 1.2s per transaction batch (85% reduction in processing time) by refactoring core C# algorithms and implementing Task-based parallel concurrency.
- **Championed** code quality through mandatory peer review and unit testing best practices, reducing post-release defects by 62% and improving team code coverage from 45% to 82%.

Development Manager & Technical Lead | Atacadão Dia a Dia | Goiânia, GO

May 2022 - Sep 2023

- **Directed** technical strategy and a cross-functional team of 6 engineers for a major SAP S/4HANA migration, integrating 12 critical legacy subsystems and saving \$200K+ in annual operational costs.
- **Mentored and coached** 6 developers, reducing code-review turnaround times by 35% and accelerating average team sprint velocity by 25% through agile scrum optimization.
- **Collaborated** with senior executives (C-level) to align the technical systems roadmap, prioritizing .NET-based high-throughput microservices to connect S/4HANA with legacy retail point-of-sale (POS) systems.

Development Manager | H&CO | Goiânia, GO

Aug 2021 - May 2022

- **Led and mentored** a cross-functional team of 8 C#/.NET developers, successfully delivering 10+ concurrent SAP B1 integration projects on time and within budget.
- **Standardized** API development using SAP DI API and Service Layer, improving integration pipeline reliability by 40% and shortening partner onboarding cycles by 3 weeks.
- **De-escalated** critical client production incidents, reducing resolution time from 4.5 days to under 2 days (55% improvement) while boosting overall client satisfaction by 20%.

SAP B1 Development Manager | Run Sistemas | Goiânia, GO

2019 - Aug 2021

- **Recruited, scaled, and led** a high-performing team of 7 developers to design, build, and support a comprehensive suite of custom SAP Business One add-ons.
- **Oversaw** the end-to-end SDLC of 4 core retail and financial products, automating warehouse inventory control for 100+ business clients, which reduced manual auditing overhead by 50%.
- **Implemented** Scrum methodologies with bi-weekly sprint planning and retrospectives, improving overall team output predictability by 30%.

Senior SAP B1 Developer | Run Sistemas | Goiânia, GO

2016 - 2019

- **Spearheaded** the architectural transition of legacy monolithic, UI-API-bound desktop add-ons into a modular, service-oriented framework using SAP Service Layer, decreasing upgrade maintenance efforts by 70%.
- **Developed** high-performance custom business add-ons for SAP Business One in C# .NET and SQL Server, handling millions of monthly transaction records with zero performance degradation.

Senior SAP Developer / Team Lead | Invent Software | Goiânia, GO

2013 - 2016

- **Promoted** to Team Lead to oversee a portfolio of custom enterprise solutions, managing a development squad of 4 and standardizing advanced C# .NET and SQL Server architectural patterns.
- **Architected** robust integration endpoints between SAP B1 and external portals, handling over 500K daily API requests and achieving a 99.95% transaction success rate.

Systems Analyst & C# .NET Developer | Milênio Distribuidora | Goiânia, GO

Jun 2007 - Jan 2013

- **Engineered** a dynamic, role-based metadata reporting engine in C# and T-SQL integrated with SAP B1, adopted as the enterprise-wide reporting standard for 300+ users.
- **Automated** electronic fiscal document generation (CT-e, MDF-e), accelerating document issuance from minutes to seconds and achieving 100% Brazilian fiscal compliance across all branches.
- **Engineered** a high-throughput bank reconciliation engine processing 50K+ monthly files, eliminating human reconciliation errors entirely and saving 40+ staff hours/week.

EDUCATION & ACADEMIC BACKGROUND

FASAM

2007 - 2009 (Coursework completed, thesis pending)

Universidade Salgado de Oliveira

2003 - 2007

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **SAP Certified Associate** – SAP Business One (Integration, Extensibility & SDK)
 - **Microsoft Certified: Azure Developer Associate** (AZ-204)
 - **Certified ScrumMaster (CSM)** – Scrum Alliance
 - **Professional Development:** Advanced Microservices Architecture (Udemy), Event-Driven Design with .NET (Pluralsight), Deep-Dive SQL Optimization (Microsoft)
-

CORE TECHNICAL PROJECTS

- **SaaS Customer Service Platform Real-Time Overhaul (2024)**: Re-architected connection layer using Blazor, SignalR, and Redis, successfully supporting 15,000+ concurrent connections and reducing latency by 88%.
 - **Tax Engine Parallelization (2023-2024)**: Refactored a complex fiscal computation engine for SAP B1 in C# .NET, using Task-based parallel programming to reduce calculation times from 8s to 1.2s.
 - **Legacy Monolith Modernization (2016-2021)**: Decoupled a legacy, UI-API bound desktop suite into a service-oriented web architecture utilizing SAP Service Layer, decreasing system failures and upgrade-related support tickets by 70%.
-

EARLY CAREER

- **IT Assistant** | Milênio Distribuidora | Jun 2006 - Jun 2007
 - **IT Intern** | Goiás Caminhões e Ônibus Ltda | 2004 - 2005 (User support, Delphi development assistance, SQL maintenance)
-
